Categories	Types of rubbish/containers	Examples and how to place them
Burnable rubbish	<p>• Please use burnable rubbish bags designated by Mimasaka city.</p> <p>Attention: A rubbish bag must be under 10kg.</p>	<p>- Drain water from the garbage before placing them in the bag.</p> <p>- Remove feces from nappies and flush the feces down the toilet, before placing nappies in a bag.</p> <p>- Remove any metal objects from burnable rubbish.</p> <p>- Please bring large quantity of rubbish yourself to the collection centre.</p> <p>- Please do not put rubbish into designated bags if you bring it in directly. The fee is based on weight.</p>
	<p>Colored bottles</p> <p>Attention: Place in a container 53 cm (length) x 36.5 cm (width) x 32 cm (depth).</p>	<p>- Bottles must be separated into clear/brown/other color and placed in the designated tagged containers.</p> <p>- Wash inside the bottles well.</p> <p>- Caps must be removed and place metal caps into "small metal object" bag, plastic caps into "plastic containers/wraps" bag</p> <p>- Containers must be filled up to about 80% to make it possible for one person to carry.</p> <p>- If the glass bottles are not clean after washing well, please place them with ceramics.</p> <p>- Remove plastic labels with "プラ" symbols. Paper labels do not have to be removed.</p>
	<p>Beer & Sake bottles</p> <p>Attention: Place in a container 53 cm (length) x 36.5 cm (width) x 32 cm (depth).</p>	<p>- Place only 1.8L sake bottles and beer bottles without a chip to container with designated tag.</p> <p>- Wash inside of the bottles well</p> <p>- Caps must be removed and place metal caps to "small metal object" bag, plastic caps to "plastic containers/wraps" bag</p> <p>- 1.8L sake bottles and beer bottles with different colors (other than brown) can be placed in this container.</p> <p>- Do not remove labels.</p>
	<p>Fluorescent lights</p> <p>Attention: Must be placed in the designated containers.</p>	<p>- Do not break fluorescent lights or mercury thermometers to place in the container.</p> <p>- Broken fluorescent lights must be in a bag, tie the bag well and place it near the container.</p> <p>- Incandescent lights must be placed with ceramics.</p> <p>- LED lights should be put out as small metal objects.</p>
	<p>Glass</p> <p>Attention: Place in a container 53 cm (length) x 36.5 cm (width) x 32 cm (depth).</p>	<p>- Place objects only made from glass in a container with "ガラス類 (Glass)" tag.</p> <p>- Mirrors and glass objects with irremovable metal pieces attached must be placed with ceramics.</p>
	<p>Ceramic</p> <p>Attention: A rubbish bag must be under 10kg.</p>	<p>- Place them in 15L or 30L non-burnable rubbish bags designated by Mimasaka city and circle "陶器類 (Ceramic)" on the bag. Tie the bag tight before placing it at the designated area. (A bag must be under 10kg.)</p>
Bottles, Fluorescent lights, Glass, Ceramics (Must be placed in containers with tags of contents or colors except for ceramics)	<p>Used vegetable oil</p> <p>Place them in the container tagged "廃天ぶら油 (Used vegetable oil)" on the collection day of bottles.</p>	<p>We are collecting used vegetable oils from your home to change it into biodiesel fuel. Fill a plastic bottle up to about 80% with used vegetable oil, tighten the cap and place the bottle in the container.</p> <p>Attention: Oils that cannot be made into biodiesel fuel... Palm oil, lard (animal fat), engine oil, grease, melted butter etc.</p>
	<p>Recyclable cans</p>	<p>- Drink cans must be rinsed before placed in the container.</p> <p>- Aluminum and steel cans can be placed together in the same container.</p> <p>- Do not place any "bottles" in the container for recyclable cans.</p> <p>- Do not include metal caps.</p>
	<p>Batteries/lighters</p>	<p>- Place batteries in designated container.</p> <p>- Lighters must be in a separate plastic bag and placed in the container for batteries.</p>
	<p>Spray cans</p>	<p>- Place spray cans in the container for bottles and put "スプレー缶 (Spray cans)" tag.</p> <p>- A hole must be made on all spray cans before placing them in the container for fire safety reasons. (Make sure to be in cool places avoiding direct sun when making holes on spray cans.)</p>
	<p>Blades/sharpens</p>	<p>- Place blades in the container for bottles and put "刃物等 (Blades)" tag.</p> <p>- Sharp objects such as blades, needles, nails and metal wire can be placed in this container.</p> <p>- Return injection needles, etc. to the medical institution or pharmacy.</p>
	<p>Small metal objects</p> <p>Attention: A bag must be under 10kg.</p>	<p>- Maximum size for small metal objects is 24cmx24cmx45cm.</p> <p>- LED lights are small metal objects.</p> <p>- Please be sure to remove the dry cell batteries.</p> <p>- Place them in non-burnable 30L bags designated by Mimasaka city, circle "金属類 (Metal objects)" on the bag and tie the bag tight before placing it in the container. (Must be under 10kg in weight)</p> <p>- Do not disassemble the home appliances.</p>

- Mercury contained in dry cell batteries and other products can cause air pollution. Please be sure to separate them properly.
- Please return injection needles and other waste generated by home medical care to the medical institution or pharmacy.

Rubbish bags designated by Mimasaka city can be purchased at City hall, branch offices and approved stores
Mimasaka Clean Center (collection centre) Ph: 0868-77-7030
